You have betrayed your trust; you have roubed your country! They take us into halls of justice and pointing the finger of scorn at the Judge dispensing justice, they burl at him the accusation: You have become the public moneys; you have bestolen the public moneys; you have be-smirched the ermine! They take us to the executive department, they call forth the trusted administrator, and with contemptutous indignation they cry out: You have been false to your oath; you have swindled your countrymen to enrich yourself! They take us to the municipal council, where gather the representatives of the people, who are sworn to deliberate for the welfare of their constituents, and they shout to them to tones of thunder. You have considered of their constituents, and they shout to them in tones of thunder: "You have conspired to rob the city which you have sworn to serve!" They exhibit to us a long array of paladins of dishonesty; the influential lawyer who works out bold and ingenious schemes by which his multimillionaire client, individual or corporate, can evade the laws which are made to regulate, in the interest of the public, the use of great wealth; the manager of the life insurance company who forgets the difference between mine and thine and turns to his own profit what belongs to the widow and the orphan. "Alas! these voices are not unconfirmed. How often have we listened to the now universal talk of 'graft' and 'grafters'! I like neither the word nor the thing. Our

like neither the word nor the thing. Our forefathers would have called graft stealing and the grafter a thief. I fear the very use of the word graft is an indication of men's tolerance of a thief and his trade.

"Irrespective of the moral side of the question, it is clearly apparent that there is no class of men who must be more deeply convinced of the fact that honesty is the best policy' than the brotherhood of bank-ers. Honesty is the basis of all prosperity, the very foundation of all business. The the very foundation of all business. The cornerstone of every transaction the banker makes is confidence, and dishonesty is the deadly poison that blights confidence. Honesty and justice are the palladium of banks and bankers. With them, they flourish and are respected; without them, they die and are disgraced.

"And is our beloved country less de-pendent upon honesty and justice than are the great financial institutions which are the great financial institutions which are the buttresses of our commerce?

"Are not honesty and honor the holiest ties that keep together society, the State and its citizens? Are they not united by these to guarantee to one another their rights, their liberties, their properties and their lives?

'Can we look for contentment and mutual amity in the hearts of those who feel that they are the victims of unfairness and partiality? No, gentlemen, fairness and justice, I repeat, are the life of nations, dishonesty their death.

The life of a nation, especially of a republic, depends to a great degree on the intelligence of its citizens. How is it that in a land where education is general cor-ruption thrives and dishonesty rules? Have we trained the intellect too much and the moral sense too little?

"But gentlemen, let us not be too sanguine. We must remember that times have changed. We live in the age of great corporations. We live at a time when the power and the temptation of money have increased a thousandfold, when its attractions have multiplied as never before, when money has almost become the criterion of worth and honor and the arbiter of peace

and war, when its possession is equivalent to a patent of nobility.

"Again, the cry heard by the Roman schoolboy is universal 'Make money, honestly if you can, but make money.' In these days of unprecedented prosperity and disgusting extravagance, new and strange principles of morelity seem to have overgusting extravagance, new and strange principles of morality seem to have overridden the sturdy views of honetsy that governed our fathers, and men who pose as the salt of the earth and who condemn, without reserve, those who steal \$50 or forge a check for \$100, or accept a bribe, will themselves make millions by lying, by misrepresentation, by fraud and by bribery.

"In private life they are stainless, but in the interest of corporations, of the trust, of the gas company, of the railroad comof the gas company, of the railroad company, of the insurance company, they will have recourse to every villany damned in the Decalogue. They will go further. They will dehauch the legislator to enact laws crushing their competitors in business, and exacting from their fellow citizens a daily

tribute, under the name of duty.

"Gentlemen, I recognize readily the vast blessings which union or consolidation for usiness purposes, if properly guarded and setly conducted, may bring upon the ion. We must not forget, however, that trusts are monopolistic in tendency, and that almost every industrial consolida-tion that has been formed, has had for its object the curtailment of competition, and every thoughtful man knows that the more you curtail competition the nearer you approach monopoly, and when no competi-

tion exists, then monopoly prevails.

Let us denounce and punish without mercy those agents of the trusts who sin against the commandment Thou shalt not steal thou shalt not bribe, thou shalt not The thief who steals in the name of a corporation is a far greater danger to his fellow than the footpad, the burglar or the pick-

Court of Chancery for a permanent injunc-tion to restrain the company from com-pleting its work. The injunction was re-fused on the ground that, although the construction of the bridge was illegal, the city could show no damage done.

Fearing that it would take a year or more for redress or to have the bridges removed by law, the citizens took the matter into their own hands and last night removed the bridges, sawing the timbers in two and tearing down the ten-ton iron girders. The girders and all heavy material were removed with the city's large steam road

Miss Alice Day, Morris County Golf Club.
As a preliminary to the championship the Miss Alice Day, Morris County Golf Club.

As a preliminary to the championship the annual match for the Clement A. Griscom trophy, between teams of fifteen from the Philadelphia, Boston and Metropolitan Women's Golf associations, will begin at 1:30 o'clock this afternoon at the Morris County Golf Club. The New York and Philadelphia teams play this afternoon, the winners playing the Boston team to-imerrow afternoon. The Boston women have now won the trophy three years in succession.

The Brooklawn Country Club of Bridgeport will hold an open amateur tournament on next Thursday, Friday and Saturday, the first in its history. The qualifying round will be at eighteen holes, with cups and runner-up prizes for first, second and third sixteens. There will be a handicap also on the last day. The entries close on Wednesday for the qualifying round with Charles H. Delanoy, secretary of the Brooklawn Country Club.

The seventh monthly handicap of the Dyker Meadow Golf Club to-morrow will be the last opportunity of the members to qualify for the club championship contest.

Washington, Oct. e.—Threescore golfers competed here to-day in the annual championship tournament of the Maryland and District of Columbia Golf Association, held on the links of the Columbia Golf Club. A long period of dry weather rendered the greens extremely fast and only a few players were able to negotiate the course in low figures. Dr. Lee L. Harban, Columbia, won the low score qualification prize with 79. T. Courtland Jenkins. Baltimore Country Club, finished one stroke behind L. L. Harban. A club cup and runner up prize, first and second prizes for the third sixteen, and prizes for the defeated eights in these second and third sixteens have been provided by the Columbia club in addition to the championship prizes for the first sixteen provided by the golf association.

Rochester, Oct. 5.—The seventh annual golf tournament of the League of the Lower Lakes was opened here to-day at the links of the Country Club. To-day's playing was between the clubs for the championship of the league. It was won by the Buffalo club, which defeated the Rochester team this afternoon by three up. The weather conditions were ideal for good golfing, but the scores were rather high because of the strong wind. In the morning the Rochester team played the Detroit club and had it easy, winning by seventeen up. The Cleveland team forfeited its match to the Buffalo team G. T. Curtis for Rochester had the lowest score in the morning with 89. The match between Rochester and Buffalo in the afternoon was closely contested, Ranson and Hedstrom playing in fine form for Buffalo and practically winning for their team. The first two qualifying rounds for the individual championship were also played to-day. Crowell of Cleveland leads with a total of 177 for the two rounds. Frank M. Pierson of the Twenty-second Regiment was the winner hopping over the distance in 62-5 seconds.

As no previous mark existed for that distance in sack racing, Pierson's now becomes the best record—that is, provided the course was measured accurately. P. J. Callahan of the New York A. C. secured the 40 yard handicap with a start of 4 feet.

The high jumping was carried on under the electric shadow of the miniature Blarney castle, and while the colleens were smacking the alleged Blarney stone, and the osculation affected Martin Sheridan so much that he could only clear 5 feet 63 inches and he lost first prize to C.
